A better experience from the start

We guide you through each step of accessing care with Kaiser Permanente, so you get the care you need without missing a beat.

Search profiles to find the right doctor

Our online doctor profiles let you browse the many doctors and locations in your area, even before you enroll. So you can join knowing you've found a doctor who fits your needs.

Transition your care seamlessly

Easily move prescriptions and schedule a visit with a doctor who's close to your home, work, or school. From day one, you'll have the support you need to help reach your health goals.

Connect to care online

After your care is effective, create an account at kp.org or download the Kaiser Permanente app.

Then manage your health on your schedule – whenever, wherever.¹

Care centered around you

Care at Kaiser Permanente isn't one-size-fits-all. Our physician-led teams work together to make sure the care you get is tailored to your needs. Your care team is all part of the same network, making it easy to share information, see your health history, and deliver high-quality, personalized care – when and where you need it.

Your healthy place should reflect who you are

We believe your story, background, and values are as important as your health history. To help deliver care that's sensitive to your culture, ethnicity, and lifestyle, we:

- Hire doctors and staff who speak more than one language
- Offer phone interpretation services in more than 150 languages
- Improved health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer²

Get seamless care with the help of your electronic health record

Share your health history and any concerns with your personal doctor.

Your doctor coordinates your care, so you don't have to worry about where to go or who to call next.

Future care teams have a full picture of your health history – without you having to repeat your story.

With your health records in hand, your care team knows your needs in the moment and reminds you to schedule checkups and tests. Plus, you can view your records 24/7.

Great care, great results

From preventive screenings that keep you healthy to world-class care if you get sick, we've got you covered.

Preventive care to keep you healthy

Preventive care is key to how we practice medicine. It can help you avoid some health issues and catch others before they become serious.

Your electronic health record plays a vital role. It tracks your preventive care services and sends reminders when you're due for your next screening. We'll let you know when to come in so you're free to focus on living your life.

Specialty care when you need it

We're also here for you if you get sick or need specialty care. With one of the largest multispecialty medical groups in the country, we can conveniently connect you with the right specialist. And you don't need referrals for most specialties, like obstetrics-gynecology, psychiatry, and drug dependency services. A referral is required for non-participating providers.

From high-quality maternity care to treatment for cancer, heart problems, and more, you get great providers, the latest technology, and evidence-based care – all combined to help you recover quickly.

Support for ongoing conditions

If you have a condition like diabetes or heart disease, you're automatically enrolled in a disease management program for personal coaching and support. With a well-rounded approach backed by proven best practices and advanced technology, we'll help you get the care you need to continue living life to the fullest.
